Welcome to The Law Office of Marc S. Bragg

"Recently, the Defendants in the Bragg v. Linden Research, Inc. and Philip Rosedale case have removed my case to Federal Court. Further, the Defendants have recently filed several motions not only seeking to dismiss Rosedale personally, but to compel arbitration and transfer this case to San Francisco, CA.

Although I cannot speculate as to their intent, the effect of the Defendants' acts are to make this litigation as costly as possible for me to pursue perhaps, in the ultimate hope, that I will abandon it. In fact, in one motion filed by the Defendants, the clear suggestion to the court is that attorneys fees in this case will be exorbitant.

Given the above, I am reaching out to you that wish to help support this case and assist me in deflecting some of the substantial costs that could arise from these acts. The issues being litigated are important to many people participating in Second Life, as well as MMORPG generally and they should not be abandoned simply because the Defendants succeed by stretching the financial resources of a single man.

Should you wish to contribute to help deflect the costs of this litigation and help to properly litigate the matter, donations can be sent anonymously and/or confidentially to my attorneys. Any donated money will be utilized to help pay for my attorneys and costs in this case. Thank you.
